Any students who have experienced sexual assault, sexual harassment, domestic/dating violence, stalking, and/or sexual exploitation may refer to this flowchart to explore their options. Survivors/victims, witnesses, and bystanders who report, in good faith, any incident of sexual violence will NOT face disciplinary action for alcohol or drug use related to the incident(s).

Any INCIDENT (that may be recent or former) of SEXUAL VIOLENCE

Do you wish to pursue the Formal Complaint Process?

YES

Formal Complaint Process
The Title IX Office will notify both parties (Complainant & Respondent) that the process has been initiated. A No Contact Order and any other necessary protective/interim measures will be put in place throughout the duration of the investigation, hearing, and potential appeal.

NO

 Continue with administrative assistance (option to revisit the Formal Complaint Process or other accommodations needed)

Administrative Assistance
 Provides protective/interim measures, such as accommodations for academics, on-campus housing assignments, on-campus employment, and health/mental health services.

Mediation
An option for resolution that can only be initiated by the willingness of both parties, in which they reach a mutual agreement. Includes protective/interim measures.

NOTE: In the vast majority of cases, the College will honor a person’s wish to accept or decline the Formal Complaint Process. However, in the rare case that the alleged incident may indicate significant harm and risk to the Reporting Individual or the SLC community, the Title IX coordinator (along with other senior administrators), may initiate an investigation into the matter.
