Dear Sarah Lawrence Community

After a wonderful ground-breaking ceremony last week, we are continuing our preparations for the construction of the Barbara Walters Campus Center. As you may have noticed, the construction field office for our contractor, Consigli, arrived late yesterday. The next step for us will be to initiate construction on the new driveway into the Andrews lot from Kimball Avenue and I will keep you posted once that start date is firmed up.

Construction sites bring with them disruption and potential dangers. Please help ensure your personal safety, as well as that of the entire campus community, by adhering to the following safety practices:

- Cross Kimball Avenue and Glen Washington Road only at designated crosswalks.
- Use the sidewalk next to PAC when walking on Glen Washington Road.
- Do not walk alongside the barricaded and fenced areas on Glen Washington Road.
- When using the Andrews Parking lot, continue to use caution when entering or exiting.

Thank you in advance for your help in maintaining the safety of all on and around our project area.

Best Regards,

Steve
